

## A House Or Maybe A Boat

Hawksley Workman

I think I will find some wood and build a house or maybe a boat  
I don't know  
Just a place to call my own  
So you'll come back and bring some wine  
There'll be a roof outside all night  
But I have never been so good with a hammer and nails  
So patience baby Christmas may be miles away  
But as today I should be done  
So bring your kisses and a cartin of clementines  
To go with the wine  
And well keep the rind  
Cuz the smell is just right at christmas time  
And then we'll join our voices there but nothing you dismay  
Remember Christ the Savoir was born on Christmas day  
So come lets invite both our families  
To sing while the piano accompanies tonight  
Don't worry 'bout the dishes come inside me dear  
We'll kiss for the rest of the yearr if that's alright  
And I think I might find some wood and build a house  
Or maybe a boat  
I don't know  
Together... together... together we'll float...
