

Almost a Full Moon

Hawksley Workman

Almost a full moon
almost a full moon
(repeat whole song)

Let's make some soup cause the weather is turning cold
Let's stir it together til we are both grey and old
Let's stir it together til it tells the story of its
old
Let's make some soup cause the weather is turning cold

Pumpkin and parsnip, carrots and turkey, cold
Bay leaf and pepper, potato and pepper, cloves
You stir a moment while i put more wood in the stove
Let's make some soup cuase the weather is turning cold

Moon's almost full and the candles are buring low
It's almost midnight you move in me in love
the light gets reflected on freshly fallen snow
Let's make some soup cause the weather is turning cold

We'll make enough to feed everyone we know
We'll make enough to feed everyone we don't
no one's ?a drifter? and everyone's alone
let's make some soup cause the weather is turning cold

Let's make some soup because everyone feels the cold
Let's make some soup cause the weather is turning cold

Almost a full moon
almost a full moon
almost a full moon
almost a full moon
