

Candle Burning

Hawkwind

My dream was of the candle burning
In the shadows life was falling
Dancing through the flame of learning
Slowly hands reach out in jeering

Man fooled to walk the candle burning
And so here brought the life returning
In to darkness they where pretend I'm going
In to darkness they where intense I'm going

The other side shown an cary knowing
Into the candle they overflowing
From they skins where color showing
A voice to me was something calling

I was to tie you out there warning
Then I awake and day was dawning
My dream was of a candle burning
My dream was of a candle buuuuurning
