Greenback Massacre

Hawkwind

Don't you want to live?
Don't you want to give?
You take it all away
Wasting all our days

If your money makes the world go round
We are in a tailspin, we are bound
Defence of your nation's energy
Defence of exaggerated needs

Burning up the air
You don't seem to care
Atmosphere for sale
You're just another nail

If your money makes the world go round
We are in a tailspin, we are bound
Defence of your nation's energy
Defence of exaggerated needs

Paper versus flesh
What a bloody mess
Like a child with a gun
Targets we've become

If your money makes the world go round
We are in a tailspin, we are bound
Defence of your nation's energy
Defence of exaggerated needs
