

Into the Woods

Hawkwind

We are waiting here for you
There's nothing else for us to do
Into the woods
Into the woods
Into the woods we run and hide
There's no escape you can't survive
We'll tear your flesh and eat your bones
And you won't be going home

Into the woods, seek and find
Into the woods, seek and find
Into the woods, seek and find
Into the woods we tear your flesh
Into the woods we'll blow your mind
Into the woods we'll blow your mind
Into the woods we'll blow your mind
Into the woods we'll blow your mind
Into the woods we'll blow your mind

We'll eat your bones
And tear your flesh
And there won't be nothing left

We'll find your footprints in the snow
There's nowhere else for you to go
We'll tear your flesh
And eat your bones
There's nowhere else for you to roam

We are waiting here for you
There's nothing else for us to do

Into the woods
Into the woods just run and hide
Into the woods just run and hide

We'll tear your flesh
And eat your bones
Into the woods

There's no where else for you to go...
