

Lighthouse

Hawkwind

Far Away in outer space
A Lighthouse guiding star
It's there to help you, human race
and tell you where you are
So take a fix on Lighthouse
And home into its beam
And light the lasers in your heart
For all the world to see
Cosmic sound and laser light
Tools Lighthouse uses well
It signals out across galaxies
Where crystal people dwell
And take a fix on Lighthouse
And home into its beam
And light the lasers in your heart
For all the world to see
