

Mind Cut

Hawkwind

Get yourself together now
Let your mind roll on
You dont what your doing
And you dont know what your on

With your Wars and Fears'
Tears and Crimes,
People going out of their minds.

I sit upon the mountain top'
With my head up in the clouds.
And I often stop and wonder
What this worlds about

With its wars and fears
Tears and Crimes,
People going insane all the time.

They think they found the reasons
For living inside.
They think they found a reason
But their living a lie.

With your wars and fears
Tears and Crimes
People going out of their minds

You sit there in your window
And watch the world go bye,
Cause you think you found the reasons
For living a lie

with your Wars and fears
Tears and crimes
People going out of their minds.
