

The Co-Pilot

Hawkwind

I look into your eyes
Co-pilot of many skies
Soaring through time and space
That smile upon your face
Trust we will have together
Will take us through that stormy weather
Co-pilot of many skies
Sees through all those lies

Journey to the edge of time
Your arms around me a love sublime
Co-pilot of many skies
The darkness of space will hide our sighs
Hide our sighs
Hide our sighs

I look into your eyes
Co-pilot of many skies
Soaring through time and space
That smile upon your face
Trust we will have together
Will take us through that stormy weather
Co-pilot of many skies
Sees through all those lies

Our love will last forever
As we tour the stars together
Co-pilot of many skies
