

The Liquidator

Hawkwind

Mine life be with thine xenomorphic cries
You can't escape me once you are chosen
The forces within me to take you over
Chemical machine, assailant of mankind
Skeletal life forms are born to be my toy's

Allotrios mind invaders, xenomorphic liquidator
Life will escape now you've been chosen
The forces within me, you're life is over
Inside I'm machine, counterfeit android
I soley exist simply to destroy
(Sent to destroy)
Antibodies feel me, you can't even see me
Synthetically productive xenomorphic blood test
My blood type has raped you I'll have to sedate you
You'll have to escape through the tunnel of light
