

The Tracker

Hawkwind

I drive my car up to the Dome
Spent a lot time away from home
All of this is to hear a sound
From a galaxy that we have found

Is there life trying to find us here?
Before this earth slowly disappears
Please contact us, save us from our doom
We need some help and we need it soon
We need it soon

I'm trying to tune in to those frequencies
Sounds that come from outer space
Hoping to make contact with another race
So many objects floating in the universe
It's not easy tracking sitting in a darkened room
As hours go past
Days, months, even years of being

Is this contact with another race
Traveling through time and space?

Audio signals coming in
From a galaxy that is so dim
Computer screen lights up the place
Start to detect a sort of face

Is this contact from another race
Traveling through time and space?
Time and space
Time and space

Time and space

Well, I guess it's time for me to go to bed now
We've successfully managed to contact another race
And now I got to lock up, get in my car and drive home
Knowing all is well

Well, I hope so
