

Till I Found You

Hawkwind

It's as if we're under a spell
Outside of time

It's as if we're under a spell
Outside of time

I never knew until I fell

Outside of time

It's as if we're under a spell

Outside of time

I never knew until I fell

Outside of time

It's as if we're under a spell

Outside of time

I never knew until I fell

Outside of time

I never knew that I was lost

Till I found you

I never knew that I was lost

Till I found you

Till I found you

Have you ever had that feeling

Like you've been here before?

And you're constantly searching

For a hidden door

That unlocks all our problems

Of love, big and small

Of time and space and reality

Where there really are no laws

I've tried so hard to think about it now

Are we reborn in a universe far away, anyhow

As time goes by, are we under a spell

Always searching for an inner hell
