

Vegan Lunch

Hawkwind

Under Construction June 11 18

I was sitting in a small café
Watching street life milling away
No eye contact faces grim
Are they hiding from some melodic sin
Is it radioactive a food of fate
Or are they going on a blind date

Now I am a vegan I eat no meat
It's a good idea for people to repeat
Set the tone don't eat fish
Try something different on your dish
Clean your system drift away you'll feel so much better I say

Is it radioactive a food of fate
Or are they going to be late
Now you might find it rather strange
That I might comment I'm not deranged
I can see the problem that stares in our face
Stop eating meat it's no disgrace
We've all been brainwashed with adverts here and there
It's time to stop be fair
