

What Are We Going To Do While We're Here

Hawkwind

Androids are playing up again, infringement of their rights
While we all smile and get as high as kites

Our mechanics are wasted, they don't make much sense
There's no sense of urgency, it's making life tense

The planet that we are on is Eden in a way
But we all love our families, but they're so far away

What are we gonna do while we're here?
What are we gonna do while we're here?
What are we gonna do while we're here?
What are we gonna do while we're here?
(What are we gonna do while we're here?)
Here (What are we gonna do while we're here?)
Here
Here, here...
