

This Will Be Televised

Hawthorne Heights

All the factories are leaving down again
My life has been torn down in this boring development
I'm not sure what normal is cause I've lost myself and all my friends
I'm not sure what normal is in this burned down development

Can you see this smoke and fire lighting up the sky tonight
Bend the flames and burning higher ashes fall this will be televised
Don't stop just yet here's the conversation
The fire has been set give me an evacuation now
(Lets get, lets get, let get the fuck out of here!)

There's no choice but to stay (bury me bury me right now)
It's such a long long way down (from the edge of this town)
I'm not sure what led me here, wasn't faith wasn't fear
I'm not sure what led me here, someone take me away

Can you see this smoke and fire lighting up the sky tonight
Bend the flames and burning higher ashes fall this will be televised
Don't stop just yet here's the conversation
The fire has been set give me an evacuation now

This is the road that is taking me nowhere (don't know which way to go)
This is the road that is taking me nowhere (show which way to go)
I fell for you, oh so long ago, but I still don't know which way to go
I'm not sure what normal is cause I lost myself and all my friends

Can you see this smoke and fire lighting up the sky tonight
Bend the flames and burning higher ashes fall this will be televised
Don't stop just yet here's the conversation
The fire has been set give me an evacuation now
