

All In

Hayden James

Since the beginning
I'm riding a wave
All in
Not running away
Since the beginning
The moment will fade
All in
But these feelings just stay

'Cause I don't need to look back
Know that you're gonna be right there by my side
How do you do that
Because I'm falling with you but I feel so high
Oh yeah yeah, feel so high
Oh yeah yeah

Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in

Breathe in love, never run out of air
Feel your touch, even when you're not there
Look above, but there's heaven right here
Here

'Cause I don't need to look back
Know that you're gonna be right there by my side
How do you do that
Because I'm falling with you but I feel so high
Oh yeah yeah, feel so high
Oh yeah yeah

Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in
Since the beginning, I've been
All in, all in

I, I, I'm all in, oh
I'm all in, oh, I'm all in, oh
I, I, I'm all in, oh
I'm all in, oh, I'm all in, oh
