

# Embrace

Hayden James

When are you coming back  
I miss your strong embrace  
I want to believe we have  
Chance to let our heart's escape

I need you here with me  
You see it on my face  
And know that when our heart beats run  
Troubles will be overcome  
Overcome, overcome

I miss your strong embrace  
I want to believe we have  
Chance to let our heart's escape  
Embrace, you see it on my face  
And know that when our heart beats run  
Troubles will be overcome  
Embrace, embrace  
I miss your strong embrace  
I want to believe we have  
Chance to let our heart's escape  
Embrace, you see it on my face  
And know that when our heart beats run  
Troubles will be overcome

Embrace  
Embrace  
Embrace
