Foolproof

Hayden James

I was passing through, no plans of staying on
What would be the chances we got lost in it all, uh
Uh
Uh

It's too hard to say where you were coming from
You're the living proof life's unpredictable, uh
Uh
Uh

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

We're foolproof
We're foolproof, baby
We're foolproof
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby
We're foolproof

I was passing through, no plans of staying on
What would be the chances we got lost in it all, eh
Eh
Eh

It's too hard to say where you were coming from
You're the living proof life's unpredictable, eh
Eh
Eh

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby
We're foolproof, baby

And it means something
It means something to me
It means something
It means something to me
It means something

It means something to me
It means something
It means something to me

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby

In a cold, cold world
When it gets too crazy
See through it all
We're foolproof, baby
