

I Won't Let You Down

Hayden James

I know what you're made of, I know who you are
I know where you came from, you travelled so far
I wanna be near you wherever you go
All I have I will give you, I need you to know

I won't let you down
I won't let you down
I won't let you down
I won't let you down
I won't let you down

I won't let you down
I won't let you down

I won't let you down
I won't let you down
I won't let you down

I know what you're made of, I know who you are
I know where you came from, you travelled so far
I wanna be near you wherever you go
All I have I will give you, I need you to know

I won't let you down
I won't let you down
I won't let you down
I won't let you down
