

Waiting for Nothing

Hayden James

You give me a lot then you cut
It's so dumb, I'm stuck with that like glue
A moment of you in my arms
Is enough to keep me in this loop

I could be waiting for nothing with you
You're killing me but it's so good
If I could leave, baby I would
I would

You give me a lot then you cut
It's so dumb, I'm stuck with that like glue
A moment of you in my arms
Is enough to keep me in this loop

I could be waiting for nothing with you
You're killing me but it's so good
You're killing me but it's so good
So good, yeah

I could be waiting for nothing with you (Yeah)
I could be waiting for nothing with you
I could be waiting for nothing with you
You're killing me but it's so good
You're killing me but it's so good
So good

Yeah, I'm too blind to know what's what
At the moment I just see us two
You keep on breaking all my rules
But you always seem to make me bulletproof

I could be waiting for nothing with you
You're killing me but it's so good
If I could leave, baby I would
I would

You give me a lot then you cut
It's so dumb, I'm stuck with that like glue
A moment of you in my arms
Is enough to keep me in this loop

I could be waiting for nothing with you
You're killing me but it's so good
You're killing me but it's so good
So good, yeah

I could be waiting for nothing with you (Yeah)
I could be waiting for nothing with you
I could be waiting for nothing with you
You're killing me but it's so good
You're killing me but it's so good
So good

Never knew what love was
Till I loved hard
You're killing me but it's so good

Never knew what love was
Till I loved hard
