

Weightless

Hayden James

We could be meant to be
I'll wait for now or forever
We don't know, no one knows
But we could find out together

'Cause your love is so contagious
Let's not over-complicate it
Let's just keep this feeling
Weightless, weightless

Let's just keep the feeling
So weightless

We could be meant to be
I'll wait for now or forever
We don't know, no one knows
But we could find out together

'Cause your love is so contagious
Let's not over-complicate it
Let's just keep this feeling
Weightless, weightless

Let's just keep the feeling
So weightless

Don't think too much
Just feel, just touch
Don't think too much
Just feel, just touch
Don't think too much
Just feel, just touch
Don't think too much
Just feel

Let's just keep the feeling
Let's just keep the feeling
Don't think too much
Just feel
Let's just keep the feeling
Don't think too much
Just feel
Let's just keep the feeling
