

## May I Never

Hayes Carll

It fills my heart to know I have a home  
It fills my heart to know I have a home  
Where kindness is tended and mercy is shown  
May I never forsake you again

I'll wait my turn to get where I will go  
I'll wait my turn to get where I will go  
No longer declare on things I do not know  
May I never forsake you again

I used to think that I knew the way, oh  
I used to think that I knew the way  
No need for higher power, no time to bow and pray  
May I never forsake you again

Holdin' on to the wonder and the glory  
Of a world and a spirit open wide  
Holdin' on long enough to tell the story  
Of the love I have discovered deep inside

I'll find it within and I'll find it above  
Yes, I'll find it within and I'll find it up above  
I'll walk through this world holdin' on to faith and love  
May I never forsake you again

Please forgive the many times I've failed  
Can you please forgive the many times I've failed?  
The past is behind me, that empty ship has sailed  
May I never forsake you again

I do not need to know the reason why  
Well, I do not need to know the reason why  
All the times I've fallen have allowed my soul to fly  
May I never forsake you again

Holdin' on to the wonder and the glory  
Of a world and a spirit open wide  
Holdin' on long enough to tell the story  
Of the love I have discovered deep inside

The only choice no one else can make  
The only choice no one else can make  
Is to decide which road my heart will take  
May I never forsake you again  
May I never forsake you again
