

# The Way I Love You

Hayes Carll

I drove all the way to Tennessee to keep from looking at you  
Constantly reminded of the damage love can do  
Amped up like a junkie praying for a little sleep  
I tried every kind of medicine to purge you from my bloodstream

Goddamn the way I love you, Goddamn the way I love you  
Goddamn the way I love you, Goddamn the way I love you

I told myself I'd never but I don't believe it  
Prob'ly ought to let it go but I can't conceive it  
I finally found a dream that ain't gonna leave  
I figured out there ain't no reprieve

Goddamn the way I love you, Goddamn the way I love you  
Goddamn the way I love you, Goddamn the way I love you

Your love is gonna put me in the grave  
I ain't got no soul to save  
Goddamn the way I love you  
Goddamn the way I love you

I drove all the way to Tennessee to keep from looking at you  
Constantly reminded of the damage love can do

Goddamn the way I love you  
Goddamn the way I love you  
Goddamn the way I love you  
Goddamn, goddamn, goddamn the way

Your love is gonna put me in the grave  
I ain't got no soul to save  
Goddamn the way I love you  
Goddamn the way I love you
