

Cinema Paradiso - Would He Even Know Me Now?

Hayley Westenra

I wonder would he even know me now
We were so young and it was long ago
Or will the memories rush back all at once with one hello

I wonder if he'll even know my name
Or must I remind him of those days
He used to love me then, he may still love me now

I wonder if this music takes him back
To when our world was one big silver screen
Lost in the darkness we'd go
- where only our hearts had been

I wonder if he still recalls my touch
I wish I could turn the clock somehow
He used to love me then, he may still me love me now

I wonder would me even know me now
We were so young and it was long ago
Or will the memories rush back all at once with one hello

I wonder if he'll even know my name
Or must I remind him of those days
He used to love me then, he may still love me now
