Let Me Lie

Hayley Westenra

Let me lie on grasses green On my mother earth I lean

Let me lie on grasses green On my mother earth I lean

Under burning sun Through my veins she runs

Let me breathe the forest air
It's the life force that we all share
Feel my burning tears

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Let me lie on grasses green On my mother earth I lean Under burning sun Through my veins she runs

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Let me lie on grasses green On my mother earth I lean Under burning sun Through my veins she runs

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Heal me through as I lie
Here with you
Heal me through
Let me sleep and keep me close

Under burning sun Through my veins she runs Her and I are one. Tištěno z pisnicky-akordy.cz
