## My Heart & I

## **Hayley Westenra**

My heart and I have wandered aimlessly
Beneath the weeping willow searching for the sun
Time after time we've met each other in a dream
And we have gazed upon the miracle of love

My heart and I have heard the angels sing And we have found upon life's broken wing And now we know that love is
Just another rainbow in the sky

Mother comfort us in thee we trust Have mercy on my heart and  ${\tt I}$ 

My heart and I will know no happiness As long as we see hate and bitterness And like a child we close our eyes Do not forsake us when we cry

Mother comfort us in thee we trust Have mercy on my heart and  $\ensuremath{\mathsf{I}}$
