

Find Me Here

Hayley Williams

No one can hold your hand
Now through the delicate darkness you go

If I trespass even one step
It all just disappears
Clock starts over

As long as I am loving you, you'll never be alone
Long as you keep wanting me around
This is one trip you're going to have to take alone
When you come back you'll find me here where I belong

Soft like sand
Sift through your hands
Memories, we both agree
Are not reality

As long as you are loving me, I know I'm not alone
Even if you're nowhere to be found
Sometimes life takes you back to places you run from
I'll be right here if ever you come home
