

Plea

Hayley Williams

Please run, please run
Please run away with me

Please come, please come
Please come and stay with me

I don't know what to do if once more I lose you
It will tear me in two

If you should go right now, if you should go right now
If you should go right now, I want to see you but I don't know
how

Please run, please run
Please run away with me

Please come, please come
Please come and stay with me

I don't know what to do if once more I lose you
It will tear me in two

If you should go right now
(I slit this cut in the black expanding sky)
If you should go right now
(The rain bleeds out before my jaded eyes)
If you should go right now
(I slit this cut in the black expanding sky)
To live without your love I don't know how

On and on I go in this world
I'm lusting after every empty girl
As smoke spat from the rifle slowly swirls

But I can't explain the way I feel
And all I know tonight is that it's real

I'm praying, darling:
Maybe someday we, together can be the king and queen
(Make me believe you mean this)
Maybe someday we, together can be the king and queen
(I'll believe this when I see it)

Maybe someday we, together can be the king and queen of all I've
e seen
