

# Hustle & Flow

Haystak

On the first roll 7 or 11 is a winner  
Either other time 11 is irrelevant  
And 7 is craps, after you've established a point  
A point being 4, 5, 6, 8, 9, or 10

2's, 3's, and 12's is only relevant on your first roll and they craps  
The money gone but the dice stay  
Just 'cuz I taught you the game don't mean you know how to play  
And it damn sure don't make you

I'm a hustla baby, I take chances everyday  
I'm a gambler baby, how can I win if I don't play  
I'm a hustla baby, you either hustlin' them or they hustlin' you  
I'm a gambler baby, I'm gon' do what the old heads taught me

Five hundred on the line and I'm looking for a 10  
But I know exactly know how to find a bitch again  
I buck 'em off the table, a 4 and a 6  
Money up, money down, who gonna fade me tricks

Came a 6 and what I left with, hush it  
It's a secret, hustlas don't discuss it  
Brush the dust off my britches when the dice game finished  
Sometimes you gotta lose, man that just the business

I done left the rent to the dice game, the water and lights  
My old lady bout to hoop and call it a night  
My last two hundred, and I'm bout to let it ride

Let 'em roll, came out a 4 and 5  
My points 9, I'm working, 8, 10, I'm searchin'  
Well, here goes a 4 and a 5  
Well, a 6 and a 3 but either way it's a 9

I'm a hustla baby, I take chances everyday  
I'm a gambler baby, how can I win if I don't play  
I'm a hustla baby, you either hustlin' them or they hustlin' you  
I'm a gambler baby, I'm gon' do what the old heads taught me

The sink in a drought and I'm tryin' to survive  
Cable off, TV only picks up five  
White sneakers, damn near look off-white  
And I'm still using heavy starches, them shit is alright

My whole life I'd have trouble stayin' focused  
But I never gave up and never stopped copin'  
Pits in the yard, a bucket in the driveway  
I'm gonna turn that bitch into a new truck one day

Someday, 'cuz I'm gonna get out here and work until  
I get a mil, fuck the lotto and a record deal  
It's real, when you don't even know when your gonna get your next meal  
Even though when you straight, you still feel like you on them X pills

Can't sit still, you pace back and forth  
Cross the floor until you can't take no more  
But I'ma be back, believe that, like my big homie E-Mack

The muthafuckin' Southside

I'm a hustla baby, I take chances everyday  
I'm a gambler baby, how can I win if I don't play  
I'm a hustla baby, you either hustlin' them or they hustlin' you  
I'm a gambler baby, I'm gon' do what the old heads taught me

I took sixteen zips of that Mexican red  
Weighed my quarters at five, charged an arm and a leg  
Busted heads, this move dealt me a new hand  
The eight I invested was now two grand

Met a busta at a club and told him I was the man  
Met up with him, sold him a quarter ki of sand  
A young dude, my mentality was like fuck dude  
We like some pit puppies fightin over dog food

In school, I sold candy a quarter a piece  
I made my money off three and the rest was all me  
In life I fucked a couple of good connects up  
So if you in the car with me keep ya heads up  
Worked so hard but couldn't stack no bread up

Finally said fuck it 'cuz I just got fed up  
The money I owe you, you can chop that boss  
Because I don't think you got the balls to come knock Stak off

I'm a hustla baby, I take chances everyday  
I'm a gambler baby, how can I win if I don't play  
I'm a hustla baby, you either hustlin' them or they hustlin' you  
I'm a gambler baby, I'm gon' do what the old heads taught me
