

Hesitate

Hazlett

Sad summer on the loose
Bad luck for me and you
Another heavy nightmare
To the list of repairs
We never made
We carry baggage well
Nobody heard the hell
That's behind the closed doors
That we painted because
We stayed the same

We don't talk like we used to
Might hate me now, but hear me out

Hey, I only wanna know if I should move out or stay
Whatever I did, just say what you need to say
Nothing is wrong when nobody's earned the blame
If this is the end, then why do we hesitate?

Ooh, ooh
Ooh, ooh

Leftover takeaways
Piles up around our place
We don't ever make time for
Talking and wine
We keep it bottled up
So long to something real
Tell me, how did we end up here?
All the mornings in bed
On repeat in my head
Is that over now?

I don't know how to talk to you
So I kicked you out

Hey, I only wanna know if should move out or stay
Whatever I did, just say what you need to say
Nothing is wrong when nobody's earned the blame
If this is the end, then why do we hesitate?

Ooh, ooh
If this is the end, then why do we hesitate?
Ooh, ooh
Ooh, ooh

We don't talk like we used to do
Do you feel like a stranger too?
Just hear me out, just hear me out

Hey, I only wanna know if should move out or stay
Whatever I did, just say what you need to say
Nothing is wrong when nobody's earned the blame
If this is the end, then why do we hesitate?

Ooh, ooh
Ooh

If this is the end, then why do we hesitate?

Ooh, ooh

Ooh, ooh
