

Monsters

Hazlett

Celebration
Good wine wasted on the walls
One time gowns to wipe it off
Warm vibrations
Hungry kisses in the halls
Cheating hearts and Russian dolls

We're not going to get no sleep
The darkness moves over so discretely

Are we monsters
Led by the things we wanted
Longing to be more honest
Desperate to find what's haunting us
Haunting us

Any day now
Moonbeams will come rescue you
If you're open to the truth
Time to come out
It's hard to find the chemistry
Cloaked with insecurity

We're not going to get no sleep
The darkness moves over so discretely

Are we monsters
Led by the things we wanted
Longing to be more honest
Desperate to find what's haunting us
Haunting us

Monsters
Haunting us
Haunting us

We're not going to get no sleep
We're not going to get no sleep

Are we monsters
Led by the things we wanted
Longing to be more honest
Desperate to find what's haunting us
Haunting us
