

## Please Don't Be

Hazlett

Move like a typhoon  
I'm just a flame  
Smokey by nature  
Charmingly sane

See golden empires  
Queens burning sage  
Boys with their desires  
Hearts in a cage

Please don't be  
In love with someone else  
Please don't be  
In love with someone, love with someone else  
Else, else, else

Bury the answers  
Burn all the proof  
Fly by my feelings  
Land on your moon

I'm going back home  
To tell them the news  
If all is so damn fair why does  
Somebody always lose?

Please don't be  
In love with someone else  
Please don't be  
In love with someone, love with someone else  
Else, else, else

'Yes' was the answer  
Love's not a game  
You're the contestant  
He was the fame

I found a new tone  
You left your sage  
To hell with my desires  
They were the cage
