

Be Yourself

Hc3

Night birds calling into the dark...the dark is falling into the
night

Rivers are asking for day...night's all around...mankind is a furio
us flame...men in the stars

You need to flying high...flying high

Ref:

Night and day...night and day...World is changing

Bodies will fade away...Thoughts will resist

Night and day...night and day...World is changing

Never leave your mind

New day is rising into the skies...Rivers smiling just for the s
un

How far is the end of these days...cloud in the sky

Remember all what we've made...God turs around

God turns around...turns around

Ref:

Night and day...night and day...World is changing

Bodies will fade away...Thoughts will resist

Night and day...night and day...World is changing

Never leave your mind...never stop your way of thinking

Every time I'm sitting here...I feel the voice...I'm getting near

The voice is me and I'm your faith, so swallow it, but don't be
late

The sun is black and black is blue, so stop your fear it's only
you

Only you can make it all, so keep breathing, don't stay alone

Ref:

Night and day...night and day...World is changing

Bodies will fade away...Thoughts will resist

Night and day...night and day...World is changing

Never leave your mind...never stop your way of thinking
