

I woke up yesterday, the sun is still right there
It wasn't a regular day, mysterious in the air

Ref: You're just living your life
Do you realize it is real?
You have nothing to lose
Don't let it disappear

No one can hurt you

I'm going through the day, nothing is the same
I'm so happy for myself, the living, the beauty, The Earth

Ref: You're just living your life
Do you realize it is real?
You have nothing to lose
Don't let it disappear

So hold your head up, no one can harm you at all
