

Not Alone

Hc3

Separate me from, from the sky, good bye cruel world, what it's
all about?

Separate me from, from my mind, desperate cry is all I have ins
ide

Separation, Suffocation, that's the only way, the only way to b
e a real man

Ref: I tried to smash those things around, I tried to leave th
em oh god

How could I, what is with us

Separate me from, from their lies, desperate cry is all I have
inside

Separation, Suffocation, that's the only way, the only way to b
e a real man

Ref: I tried to smash those things around, I tried to leave th
em oh god

How could I, what is with us

Smile to the sky, send a few pretty thoughts and wait for the a
nswer

Belive, maybe you're not alone

How could you do this to me, maybe you're not alone

Don't try to let me down

Ref: I tried to smash those things around, I tried to leave th
em oh god

How could I, what is with us
