Something is flying, don't you see? And something is hiding for me

I live my life and I want to feel, why all the world is spinning around

Ref: I want to see you satisfied, I want to feel, I want to see
I want to see you satisfied, I want to feel, I know it's real, yeah

Is it all only illusion? Are we only rays of shining sun?
I have to live for 1000 years, I have to know it all

Ref: I want to see you satisfied, I want to feel, I want to see
I want to see you satisfied, I want to feel, I know it's real, yeah
