

When the hate is born - prejudice comes around
When the night is gone - the flashbacks on my mind

Ghosts of ancient times moving round and round and round
Just a mortal, the mortal, I see the Judgement day

Ref: Stop your anger now, world is bleeding don't you see
United we stand, distributed by me

I'm not just a priest - religions, wars and poverty
This is the way it's got to be, so what you mean?
It's a mortal, a mortal, the Judgement day for free

Ref: Stop your anger now, world is bleeding don't you see
United we stand, distributed by me

Cry your teras for me, they're fading away into me
Just cry your teras for me

Fear is a friend of mine, fear is a friend of yours
Fear is a friend of us, so cry your teras for me
