

ANIMALS

He Is Legend

I lick my finger and my thumb
I pluck your berries one by one
I save the nectar you secrete
Patiently sour turns to sweet
Do you recall when we first met
White picket fences, words were wet
The threshold where we stood was Hell
I picked this rose for you as well

You've been tripping me out
Wildest thing I've tasted
You got me spinning around
Like I'm a rabid animal
So drunk I might drown
Wildest thing I've tasted
I've been sucking you down
Like a goddamn animal

Covered in your sickening sweet
Leave trails of you right behind me
Come crawling back for one last taste
No drop of poison goes to waste
My foaming mouth, unclench my jaw
I lick your juice from my red paws
I'm drunk, come get me Jezebel
I picked this rose for you as well

You've been tripping me out
Wildest thing I've tasted
You got me spinning around
Like I'm a rabid animal
So drunk I might drown
Wildest thing I've tasted
I've been sucking you down
Like a goddamn animal

You've been tripping me out
Wildest thing I've tasted
You got me spinning around
Like I'm a rabid animal
So drunk I might drown
Wildest thing I've tasted
I've been sucking you down
Like a goddamn animal

Like a goddamn animal
We're wasted and running wild
Liked goddamned animals
