

# Bent

He Is Legend

I'll never make it out alive  
No, I'll never make it out of here alive...

Get out, get out  
Get out of me  
Get out, get out  
Get out

Before we get to know you  
We'd love to change your name  
It's okay this is normal  
Don't think and don't complain

Get out, get out  
Get out of me  
Get out, get out  
Get out

Won't tell you where you're going  
Or when you're coming back  
This won't be all for nothing  
Just sit back and relax

Now hurry kid  
Take this pen  
Initial here and here  
And sigh  
Don't worry kid  
It'll all be fine  
Now move it along  
The back of the line

This won't be all for nothing  
It's okay I'll be fine

Oh no, here we go  
We lost him just like that  
Bend anything too far  
You know it's bound to snap

You hung yourself on the dotted line  
You know you're here, but you don't know why

You signed your life away  
We own everything

Oh no, here we go  
We lost him just like that  
Bend anything too far  
You know it's bound to snap
