

Frankenstein

He Is We

I told you all my secrets hoping you'd be gold
Gave you my heart and told you to keep it
Then you sent me home
Here I am
Parts of me I'm revealed entirely
I am naked incomplete

Oh baby
Look at what you've made me
Why'd you have to break me
Taking all your favorite pieces
Saving what it is you're taking
From us pretty ladies
We all lay in line as you build your Frankenstein

Oh oh
You build your Frankenstein
Oh oh
You build your Frankenstein

Are you proud of your creation
The damage that's been done
If she's anything like I am
She'll see your face and run

You rounded up
Your beauties
Robbed us blind
But now we see
That you're just a desperate thief

Oh baby
Look at what you've made me
Why'd you have to break me
Taking all your favorite pieces
Saving what it is you're taking
From us pretty ladies
We all lay in line as you build your Frankenstein

You've gone mad
Taking the greatest away from the best you've had
It's so sad
Hoping and waiting
But she'll never love you back

Oh baby
Look at what you've made me
Why'd you have to break me
Taking all your favorite pieces
Saving what it is you're taking
From us pretty ladies
We all lay in line as you build your Frankenstein
As you build your Frankenstein
