

Til the End

He Is We

No one told me
That love could kill
Didn't stop me
From falling for you still
I will not be told how to feel

You're the loaded gun
My heart beats for
I'm the toxic one
Were the perfect storm
But our loves' beyond all of this world

Romeo once said
I'd give my life for Juliet
Like Bonnie and Clyde
I'm by your side
Til the end

You'll have my last breath
I promise you all that I have left
Even love stories
Love stories have to end

Even if we
Are withering away
I'll be calling out your name
Hell awaits us
We'll make love in flames

You're the loaded gun
My heart beats for
I'm the toxic one
Were the perfect storm
But our loves' beyond all of this world

Romeo once said
I'd give my life for Juliet
Like Bonnie and Clyde
I'm by your side
Til the end

You'll have my last breath
I promise you all that I have left
Even love stories
Love stories have to end

All love stories come to an end
All love stories come to an end

If this here is the end
I'd rather die with you
Than try to find love again
If this here is the end
I'd rather die with you
Than breathe again
Breathe again

Romeo once said
I'd give my life for Juliet
Like Bonnie and Clyde
I'm by your side
Til the end

You'll have my last breath
I promise you all that I have left
Even love stories
Love stories have to end
