

White Noise

He Is We

Awkward
I'm trying so hard to be cool
Way back in high school
I'm at a dance and he walks in
But she came with him
I'm in a dress
I hope he loves
He could look my way as if to say
Rachel you're the one [*swoon*]

Would you walk my way if I moved like this if I blew a kiss now would you
Only see me in a crowded room fully consumed I want you
It's all just white noise
When I hear your voice
Everything is white noise
But you
Would you say my name in the pouring rain all just to say I love you
Would you hold my heart if I came to you would you have a clue I want you
Everything is white noise
But you

But he brought Laura
Kinda pretty and she'd dance
They hit the floor but
I knew she'd blow her chance
She said see ya
Then she kisses his best friend
So he walked my way
As if to say Hey Rachel wanna dance?
But no
He walked by and he sighed real slow
I care more than you'll ever know

Would you walk my way if I moved like this if I blew a kiss now would you
Only see me in a crowded room fully consumed I want you
It's all just white noise
When I hear your voice
Everything is white noise
But you
Would you say my name in the pouring rain all just to say I love you
Would you hold my heart if I came to you would you have a clue I want you
Everything is white noise
But you

Now the lights they turn down low
I guess it's time to dance real slow
He grabs my hand and he says let's go oh oh
He pulls me close
I've never felt like this
I get nervous and I dodge his kiss
I know that after tonight we won't last
Best almost date I've ever had

Would you walk my way if I moved like this if I blew a kiss now would you
Only see me in a crowded room fully consumed I want you
It's all just white noise
When I hear your voice

Everything is white noise
But you
Would you say my name in the pouring rain all just to say I love you
Would you hold my heart if I came to you would you have a clue I want you
Everything is white noise
But you
