

# Please Please Please (Young Hollywood)

Head Automatica

You scream louder than fiction  
And you get down on your knees  
And tear open your heart  
So I can love you and your disease

You lick the hand that feeds you  
And kiss the blade that cuts  
I wanna fuck you in your gods hands  
When your praying bites the dust

Please, please, please, please, please, please, please, please,  
Let me anoint the lust inside you  
Please, please, please, please, please, please, please, please,  
Let me devalue what's inside you

Hollywood  
At night  
Hanging around  
If this is a must  
Then dying is a must right now  
Hollywood  
At night  
Hanging around  
If this is a must  
Then dying is a must right now

And I'll deny you  
Fact or fiction, fact or fiction, fact or fiction  
It's a mission to survive  
And learn to want you  
When I hate, when I hate  
What's all inside

Please, please, please, please, please, please, please, please,  
Let me anoint the lust inside you  
Please, please, please, please, please, please, please, please,  
Let me devalue whats inside you
