

# Caught In A Spider's Web

Headhunter

You have wasted my life  
And you have grabbed my youth  
I've lost too much time  
Caught and blinded by your female crime  
...and hide at the same time

Never I dream my life  
You know I live my dream  
Caught in a spider's web  
Misery, suffer, pain, injustice  
Caught in a spider's web  
Misery, suffer, pain, injustice

Darkness has grasped my skin  
Scars will heal but the pain will last  
Promise me you'll pay your toll  
You will suffer, lose your soul

You have missed your chance  
You've had it all in your hands  
Brought to blame another's back  
Let them gag in your suffering track

Caught in a spider's web  
Misery, suffer, pain, injustice  
Caught in a spider's web  
Misery, suffer, pain, injustice
