

# The Space We Created

Headhunterz

Hardstyle

This is the space we created

Party people from around the world gather in one special place

They perform a ritual dance

This dance shows a continuity between life and death

Regeneration, art, music, poetry and dance come together in a sacred space

This is the space we created

We show you that there is no true end to life

But a cycle of symbolic and true deaths and rebirths

This is the space we created

This is hardstyle

Regeneration, art, music, poetry and dance come together in a sacred space

This is hardstyle

This is the space we created
