

Caution

Headie One

When we slide through there's no stalling
Car doors open your only warning
Caution, caution, distribute corn in
They start running away
Reverse this drilling on me
No way, no way, no no no

I'm that young nigga living
I ain't tryna be on all them niggas just existing
I gotta do these drillings
I been drilling, I been drilling, I been drilling, I been drilling
They complain that I don't listen
Cos I say the same shit, tell me something different
Shawty went low, she went and gave me something different
I sealed the deal, I made that shit official
Studio, I'm laying something different
My lil nigga hungry I just pay him something different
Food was [?] came with something different
Chicken mixed with steak and that's the taste of something different
They look into my eyes and they can tell there's something missing
2 guns I was screaming fuck the system
Something different why they think I'm on the same shit
On the opp block in different places
This is my religion, from the streets I'm educated
Bottle of Ciroc has got me faded
I took all of these cases, they [?] someone that caught no different
Food case and an AM, didn't know no different
All my niggas wanna grind, all these nittys on the line they having my nigga
s sipping wine

I hope the yutes come with an appetite, do damage like
Escargot to the belly have that, big bully here so you know they won't clap
that
Slap that, tan that, Bolo stones so that mad fact
It could've been a spinner but I came with something different
He could've got away but I came with something different
Could've seen another day but the machine kept on spitting
I hit him with the rhythm, another nigga missing
The stones will therefore lift him

When we slide through there's no stalling
Car doors open your only warning
Caution, caution, distribute corn in
They start running away
Reverse this drilling on me
No way, no way, no no no no no way
When we slide through there's no stalling
Car doors open your only warning
Caution, caution, distribute corn in
They start running away
Reverse this drilling on me
No way, no way, no no no no no way
