My man said that he weren't involved, I didn't know what to believe
Still crash that same way, make blood pour from his chest like Eve
How many times did I pull up at tops like the last stop on the 243
It's kill or be killed so I gotta make sure that it's you, not me
Might do it with waps or get Yankee like the New York team
Young boy, you ain't cheffed nobody, tell him "get round there and lose your
