

Take Risks

Headie One

No risk no reward, I gotta take risks
Headie One want it all, I gotta ball, I take risks
I keep it real to the core, I will never take this
If Headie One gripping the 4s, I dare a nigga to take risks
I told em nobody made me, it's just Headie that made this
These bitches come and they go, shawty you can't change this
That bitch there said I'm taking too much risks, that bitch just cramping my
style
Well done you was taking risks back then, but we're the ones taking risks no

I stuck my [?] different day, but still I'm on the same shit
All of this white on the table, nobody can't call me racist
Been getting complaints from the biggies upsu and they said I push weights

I'm married to the streets, I stood at the top of that aisle
My solicitor said the CPS printing them files off and taking that trial
4 and a half of each, I'm brucking that down I'm travelling miles
I told they needed a night shift and I do the day shift
Run through 1000s, I remember when I couldn't see a 100
But now I see tings in abundance, they don't know my teeth don't need braces
Got a big ting on the block and it feels like it's been there for ages
Feds had me locked on the wing and I feel like I've been there for ages
My team do dippings and drillings, hard work's amazing
Pressplay [?], we don't leave traces
[?], if it ain't worth the risk then I will not take it
That's what I tell all my niggas, we gotta handle our business

No risk no reward, I gotta take risks
Headie One want it all, I gotta ball, I take risks
I keep it real to the core, I will never take this
If Headie One gripping the 4s, I dare a nigga to take risks
