

# Slow Down Town

## Headlights

Last night I could tell when you were sleeping  
You dreamt about easier times

When your friends were around and they called you on the  
weekend  
And you knew where all the people hung out

They said, "we'll take you downtown and show you around"  
They'll take you downtown, and show you around

I'm worried when you wake up  
In the morning that you'll find that  
Everything's the same and you'll want to  
Go back to sleep for the day

You'll think when we were younger  
Were they joking when they told us  
That things should work out if you try your best  
Not to scream or shout
