

DAYLIGHT LIGHTNING

Headstones

Don't come crying
When the darkness talks
Made up your own rules
And you just can't stop

Reassemble all the hand grenades
Hidden in the backyard
Where the children play

Now your world's on fire
And you ain't the same
You got daylight lightning
Running through your veins

And the world's on fire
And you ain't the same
It's just daylight lightning
And hand grenades

And I see the night has
Grown some teeth
Think in zero-sum terms, honestly
It's just the credit junkies
They're a different breed
It's the daylight lightning, honestly

Now the world's on fire
And you ain't the same
When the unexpected
Tears through your days

It's daylight lightning
And hand grenades
Just daylight lightning
Daylight lightning

Now the world's on fire
And you ain't the same
It's daylight lightning
And hand grenades

And the unexpected
Tears through your days
Hidden in the backyard
Where the children play
It's daylight lightning
And hand grenades

Now your world's on fire
And you ain't the same
You reassemble all the hand grenades

Don't come crying
When the darkness talks
Made up your own rules
And you just can't stop
