

## DECades

### Headstones

Just landed on my feet  
In the middle of the street  
Like a rocket coming out of the door  
Seething underneath  
And the heartbeat is obscene  
Affecting everything right down to the core

Tell me you don't get it  
You don't like it or accept it  
It's so cold, but I don't need anymore  
Forever do or die  
Smile and wave as I drive by  
Everybody's here to even the score

Days bleed to decades  
Whole worlds fade away  
Days bleed to decades  
And I just can't wake up that way

I know it ain't fair  
Well, I really don't care  
I smell the smoke  
And hear the whistle of the train  
You never will believe it  
Till the minute that you see it  
I don't buy it is the common refrain

I've got the same song on repeat  
I just live relentlessly  
I never slow down for the darkness of the night  
I stay right to the record  
Every single second  
I have lived to fight  
The dying of the light

Days bleed to decades  
Whole worlds fade away  
Days bleed into decades  
And I just can't wake up that way

And I just can't wake up

Landed on my feet  
In the middle of the street  
Like a rocket coming out of the door  
Seething underneath  
And the heartbeat is obscene  
Affecting everything right down to the core  
I know it ain't fair and I really don't care  
I smell the smoke  
And hear the whistle of the train  
And you never will believe it  
Till the minute that you see it  
I don't buy it is the common refrain

Days bleed to decades  
Whole worlds fade away

Days bleed into decades  
And I just can't wake up that way

Days bleed into decades  
Whole worlds fade away  
Days bleed to decades  
And I just won't wake up that way

And I just won't wake up  
I just

Days bleed into decades  
Whole worlds fade away  
Days bleed into decades  
And I just won't wake up that way
